SUMMARY

Senior .NET/Angular Developer with 6+ years of experience building scalable web apps in cloud-native environments (Azure, Kubernetes). Skilled in microservices, modular monoliths, CI/CD, clean architecture, and Agile delivery. Proven record of shipping enterprise-grade solutions for finance, healthcare, and global clients. Expanding expertise into AI and machine learning technologies.

EDUCATION

10.2010 University name: **Gdańsk University of Technology**
- Faculty: Electrical and Control Engineering
01.2017 Field: Electrical Engineering
Degree: **Master of Science, engineer**

COMPETENCES

- Clouds: **Azure**
- DevOps toolchain: **Kubernetes**, Terraform, Docker, GitHub Actions
- Backend technologies: **C#**, Python 3, .NET 8, **ASP.NET Core**, MSSQL, PostgreSQL, MySQL, Redis
- .NET toolchain: **Entity Framework Core**, AutoMapper, MediatR, NUnit, XUnit, Moq, Fluent Assertions, Dapper
- OOP principles: **SOLID**, **CQRS**, DRY, KISS
- Architecture: Microservices, Event-driven, Domain-Driven Design (DDD), Clean Architecture
- Design patterns: **MVC**, Observer, Decorator, Singleton, Adapter, State, Strategy, Method and Abstract Factory
- Web platforms: Vue, **Angular**
- Web toolchain: HTML5, CSS3, TypeScript, JavaScript, RxJS, NgRx
- Other toolchain: JSON, REST API, OAuth/OIDC, Swagger/OpenAPI
- Distributed version-control systems: **GIT**, GitHub, Azure Repos

SKILLS AND OTHER COMPETENCE

Languages

- Polish - native
- English - intermediate B2

Soft Skills

- Technical leadership
- Problem-solving
- Team collaboration
- Communication

Development Tools

- Rider
- WebStorm
- Visual Studio Code
- Azure DevOps

EXPERIENCE

- 02.2022** **Senior Angular/.NET Developer** Angular | .NET Core | MSSQL | RabbitMQ | Redis
- EY Global Services (Poland) Sp. z o.o., Wrocław
until now I'm responsible for the following:
- Developing solutions using a variety of technologies and tools to for cloud-based systems
 - Applying object-oriented and functional programming styles to real-world software engineering problems
 - Adopt Agile software delivery techniques and technologies including Continuous Integration and Continuous Delivery (CI/CD)
 - Performing code reviews and guiding other team members to deliver best results to our Clients
- 10.2020** **Regular Angular/.NET Developer** Angular | .NET | MSSQL
- LuxMed Sp. z o.o., Warszawa
01.2022 I was responsible for the following:
- Develop new products and add new functionality to existing software systems
 - Write clean, scalable code using C# programming language according to the companies development specifications
 - Close cooperation with software architects and business analysts
- 12.2019** **Regular Full Stack .NET Developer** Blazor | .NET | MSSQL
- Alior Bank S.A., Gdańsk
09.2020 I was responsible for the following:
- Develop new products and add new functionality to existing software systems
 - Proactively research latest technologies and advice on usability to the development team
 - Revise, update, refactor and debug code
- 01.2019** **Junior Vue/.NET Developer** Vue | .NET | MSSQL
- Sprint S.A., Gdańsk
11.2019 I was responsible for the following:
- Software development based on provided requirements (C#)
 - Software development according to corresponding standards
 - Close cooperation with software architects and business analysts
- 09.2018** **Junior Angular/.NET Developer** Angular | .NET | MSSQL
- Infoprojekt Sp. z o.o., Gdańsk
12.2018 I was responsible for the following:
- Continuously design, develop, and test web solutions (C#)
 - Providing high quality standards of programming
 - Operate effectively within an agile development model

- 10.2017** **Quality Assurance** .NET
 - ITMAGINATION Sp. z o.o., Płock
- 09.2018** I was responsible for the following:
- Creating and executing test cases based on requirements
 - Co-operation with development team to provide the best solutions
 - Analyzing and monitoring whole testing process to ensure functionality and propose amendments if necessary
 - **Implementing** automated tests (C#, Selenium Web Driver)
- 07.2016** **Junior Engineer for testing and analysis** .NET
 - Sii Sp. z o.o., Gdańsk
- 09.2017** I was responsible for the following:
- Analysis of project documentation
 - Designing test specification based on system specification
 - Implementing, code reviewing and refactoring automated tests (C#)
 - Executing automated and manual tests of embedded systems
 - Working on test process improvement and test automation
 - Using laboratory measurement equipment and other tools specific for automotive industry for problem analysis and debugging
- 03.2015** **Intern Linux Software Engineer** 
 - Intel Technology Poland Sp. z o.o., Gdańsk
- 10.2015** I was responsible for the following:
- Designing, developing, enhancing and validating various class features for Linux kernel modules (C/C++)
 - Actively participating in all stages of software development life-cycle
 - Documenting software specifications and requirements
 - Defining functional and non-functional requirements for software/hardware
- 10.2014** **Designer**
 - Enamor System Sp. z o.o., Gdańsk
- 02.2015** I was responsible for the following:
- Designing and modelling of electronic components that are used in fire protection system extracting Autodesk Inc. products
 - Analysis of the safety objects
 - Involvement in the implementation of platform security management ZEW.SMS
 - Maintenance of the safety systems
